Comment. This report is a compilation of reports received from various contacts in Manchuria. Although it is conceivable that large numbers of Soviets are in the Harbin and Port Arthur-Dairen areas, the numbers as stated in the report, exclusive of these two areas, are believed to be excessive. It is also believed that the 15,000 Soviets in Huangkutun should be included with that of Mukden, as Huangkutun is known as one of the industrial suburbs of Mukden.
